↓ Debio godkjent

Latest date for renewal: date 31.12.2014

Standards for organic aquaculture are not yet regulated by law in Norway, and the Debio standards for this production area are thus private law. Norwegian Ministry of Fisheries and Coastal Affairs has published a national regulation which acknowledges the Debio standards for aquaculture to be relied on until a detailed regulation on aquaculture is accepted in connection to the EC 834/2007. Debio are accredited EN45011/ISO65 for certification of organic aquaculture

This certificate is only verifying that the producer have a production certified by Debio. Each product or batch with products shall have a verification from the producer confirming that the standards are fulfilled. The use of Debio labelling can be such verification.
